

Pre day	Wednesday	27/01/2021	14 h 00
Public lecture			18 h 30
<hr/>			
Welcome	Thursday	28/01/2021	08 h 00
Opening session			08 h 15
Medial ramp injuries			09 h 00
Medial root tears			09 h 45
Coffee break			10 h 45
Lateral root tears			11 h 15
Industry workshop			12 h 30
Lunch break			13 h 00
Industry workshop			13 h 45
Free paper session 1			14 h 15
Pediatric meniscus			15 h 05
Coffee break			15 h 50
Daily practice changes over time			16 h 20
Can meniscal repair prevent early OA ?			17 h 00
Welcome reception			18 h 00
Social lecture			18 h 30
<hr/>			
Industry workshop	Friday	29/01/2021	07 h 30
Cartilage session			08 h 00
Meniscus and cartilage replacement			09 h 00
Coffee break			10 h 30
Osteotomy			11 h 00
Industry workshop			12 h 30
Lunch break			13 h 00
Industry workshop			13 h 45
Industry workshop			14 h 15
Free paper session 2			14 h 45
ESSKA session			15 h 35
Coffee break			16 h 20
ACL and meniscus			16 h 50
Meniscus and sports			17 h 50
Poster tour and drink			18 h 35
Dinner			20 h 15
<hr/>			
Rehab session theory	Saturday	30/01/2021	09 h 00
Basic science : Future perspective of meniscus related research			09 h 00

Wednesday 27/01/2021	Pre day		
	Public lecture		
Thursday 28/01/2021	Opening session	Evidence versus surgical reality: gap between science and practice	Jon Karlsson / Philippe Beaufils
		Importance of genetics in meniscus and cartilage	Linda Sandell
		Knee morphotypes	Peter Verdonk
	Medial ramp injuries	Critical overview of medial ramp lesions	Romain Seil
		Surgical anatomy of the medial meniscus ramp	Robert Laprade
		Factors associated with medial ramp lesions	Caroline Mouton
		How I do a medial ramp repair?	Cécile Toanen
		Outcome ramp lesions	Mathieu Thaunat
	Medial root tears	Critical overview of medial root tears	Nicolas Pujol
		Root tears of the medial meniscus: the Asian perspective	Hide Koga
Distraction Forces On The Meniscal Roots Depend On Axial Loading Rather Than Flexion		Elmar Herbst	
Medial meniscus root tears ans spontaneous osteonecrosis of the medial femoral condyle		Robert Laprade	
10 years of root repairs: what's the outcome? Should we repair isolated medial meniscus root tears in high level athletes?		Christophe Hulet Jacques Menetrey, Robert Laprade	
Lateral root tears	Critical overview of ACL associated lateral root tears	Wolf Petersen	
	Pivot shift and injured lateral root in ACL injured knees	Andrew Amis	
	MRI signs for lateral meniscus posterior root tears in ACL injuries	Hide Koga	
	Techniques and results of type I lateral meniscus root tears	Robert Laprade	
	The parrot-beak tear (type II) lesion: repair or neglect?	Peter Verdonk	
	Type III lateral root tears (MF ligament): do they exist? Lateral root instability: a new entity?	Wolf Petersen Romain Seil	
Pediatric meniscus	Secondary meniscus injuries in non operated pediatric ACL tears	Guri Ekas	
	Medial ramp meniscus lesions in children	Franck Chotel	
	Hypermobile meniscus: diagnosis and treatment	Sang Hak Lee	
	Discoid meniscus: new european approach Osteochondritis Dissecans: update 2021	Loic Geffroy Stefano Zaffagnini	
Daily practice changes over time	Meniscal repair: Behavioral changes among knee surgeons in France	Matthieu Ollivier	
	Meniscal repair: Behavioral changes among knee surgeons in Germany	Philipp Niemeyer	
	Trends in isolated meniscus repair and meniscectomy in Japan	Hide Koga	

	Trends in US	Nicholas DePhillipo
Can meniscal repair prevent OA	Topographic analysis of osteochondral changes after partial meniscectomy	Henning Madry
	What can imaging procedures tell us about early OA after meniscus surgery?	Stefan Nehrer
	The concept of meniscus centralization: technique and early results	Hide Koga
	Repair of bucket-handle meniscus tears: what to expect in a long term-follow-up	Mickael Hantes
	Long term cartilage status after meniscal repair	Nicolas Pujol
	Imaging versus functional results: what's more important?	Michael Hirschmann / Bertrand Sonnery Cottet
Cartilage	Malalignment and effects on meniscus and cartilage in the tibiofemoral compartment	Mustafa Karahan / Baris Kocaoglu
	Update on marrow stimulation:	Andreas Imhoff
	Update on autologous chondrocyte implantation:	Stefan Nehrer
	Update on osteochondral transplants and mosaicplasty	Peter Angele
Meniscus and cartilage replacement	Meniscus Transplant/Substitution Using Autologous Tendon Graft: Early Experiences	Cécile Toanen
	Mid term results of polyurethane meniscal scaffold: european multicentric study	Karl Eriksson
	CMI	Cécile Toanen / Aad Dhollander
	CMI	Stefano Zaffagnini
	CMI	Juan Carlos Monllau
	Results Of Primary And Revision ACL Reconstruction With Meniscal Transplant: Good Results In Selected Patients	Tim Spalding
	Meniscal allograft transplantation and anterior intermeniscal ligament suture: clinical and imaging outcomes	Nicolas Pujol
	NuSurface	Peter Verdonk or Vincenzo Condello
Osteotomy	Focal metal or plastic cartilage resurfacing implants: what to expect?	Matthias Feucht
	Imaging versus functional results: what's more important?	Pablo Gelber et Peter Verdonk
	Unloading and cartilage regeneration in animal models – the biologic perspective	Henning Madry
	Is there difference between focal cartilage lesion and early osteoarthritis?	Peter Angele / Jean Marie Fayard
	HTO : a pre op scoring system for a proper indication	Camille Steltzlen
	Meniscal transplantation and osteotomy: sense or non-sense?	Juan Carlos Monllau
ESSKA session	Osteotomy or unicompartimental knee prosthesis and sports	Dietrich Pape / Jean Marie Fayard
	Surgical risk factors for HTO	Ryohei Takeuchi
	Slope changes and ligament injuries in the malaligned knee	Ronald van Heerwaarden
	Traumatic ESSKA consensus : classification of meniscal lesions	Sebastian Kopf
Update degenerative meniscus consensus	Roland Becker	
ESSKA allograft initiative	Tim Spalding, Peter Verdonk, Laura de Girolamo	

	ESSKA Core Curriculum 2020	Martin Lind
ACL and meniscus	Profile of meniscus injuries in ACL injured patient	Amanda Magosch
	Anterior tibial translation in the sagittal plane and its implications for the meniscus: a forgotten entity?	David Dejour
	Passive anterior tibial translation on MRI	Shahnaz Klouche
	Concomitant Repair Of Displaced Bucket Handle Repairs And ACL Reconstruction	Sebastian Kopf
	Secondary meniscus lesions in ACL reconstructed knees in the long term	Patrick Djian
	Rotatory instability: meniscal repair and/or extraarticular lateral reconstruction?	Romain Seil
Meniscus and sports	Prevention of meniscus injuries in sports: fact or fiction?	Thomas Tischer
	Medial meniscus repair or resection in the ACL injured knee in athletes?	Bertrand Sonnery-Cottet
	Meniscus repair or resection in the stable knee in athletes?	Andy Williams
	Post traumatic lateral meniscus instability in ACL injured knees	Jacques Menetrey
	Acute ACL reconstruction and meniscus repair in professional skiers	Christian Fink
Samedi 30/01/2021 Basic science : Future perspective of meniscus related research	Anatomy and vascularisation of the meniscus	Robert Smigielski
	The anatomical interaction between the medial ramp and the semimembranosus	Yvan Saenz
	Vascularisation méniscale (étude anatomique de dissection)	Decante Cyrille
	Advanced microscopy analysis of the micro-nanoscale architecture of human menisci	Olga Barrera
	Age related differences of neuronal structures in the meniscus	Theresa Diermeier
		Andrew Amis
	Effect of meniscocapsular and meniscotibial based lesions on knee laxity in ACLd and ACLR knees : Biomechanical study	Nicholas DePhillipo
	The Meniscus Tear: A Review of Stem Cell Therapies	Norimasa Nakamura
	Injured meniscus and distinct phenotypes of meniscus degeneration	Linda Sandell
	Micro flow imaging in high resolution ultrasound	Burt Klos
Biologics for meniscal healing	Laura De Girolamo Magali Cucchiarini	
Rehab session
